PROFESSIONAL SUMMARY

A responsible 5th-semester undergraduate student majoring in Information Systems, driven by a passion for learning and a strong determination to embrace new, positive challenges. I have a deep curiosity for various subjects, but I'm particularly drawn to anything related to data and web development. I'm looking for chances to use my academic expertise and hands-on skills in real-life situations, with the goal of making a valuable contribution to innovative projects and deepening my grasp of data analysis and website development.

SKILLS

- **Soft Skills:** Analytical Thinking, Problem Solving, Teamwork, Time Management, Attention to Details, Enthusiastic Learner, Effective Communication
- **Hard Skills:** Data Analytics, Software and Web Development, UI UX Design, Business Information Systems
- **Tools:** SQL, Python, Java, C++, Tableau, Microsoft Power BI, Microsoft Excel, HTML, CSS, PHP, Bootstrap, Figma
